

STATE CARE OF THE INSANE.

GOV. FLOWER AND MAYOR GRANT ON THE SUBJECT.

How the Counties of New York and Kings Pay an Undue Share of the Taxes Under the Act of 1890—Changes Suggested.

ALBANY, Jan. 14.—Both the Governor of the State of New York and the Mayor of the city of New York have, through their respective messages of this month, called public attention to the injustice suffered by the counties of New York and Kings under the operation of the law of 1890 providing for the State care of the insane. These two counties now pay all the expenses of maintaining their own insane patients in public asylums, while at the same time paying the full proportion of the expense of maintaining the insane paupers of the other counties of the State.

The act of 1890 provides that all the insane inmates of county poor-houses shall become a charge upon the state, and that the counties shall be relieved from special taxation on their account whenever they shall be transferred from the local institutions to any of the nine hospitals belonging to the State, upon which nearly \$10,000,000 has been expended. Under this provision many of the counties have already transferred their insane to these hospitals, where they are supported by the State treasury, and it is expected that with the present year the transfer will be completed by all the counties, with the exception of New York, which, while yet defraying the heavy cost of their own insane institutions, got no return through the State for the same in the shape of the other counties. Gov. Flower points out the fact that New York and Kings counties have given up the care of their insane to the General Sessions before Judge Fitzgerald to plead an indictment against the divers keepers of Billy McCleod, who was on trial yesterday in the General Sessions for robbing Robert Merner there. It was this case that led to the trial of the divers, and it is believed that the Grand Jury will find other indictments against divers keepers to-day.

Gov. Flower also points out the fact that the remaining fifty-eight counties will secure a reduction of at least \$700,000 in their expenditures for the insane. For, as Gov. Flower says, "the State will pay the expenses of the County Taxation necessarily being general."

Gov. Grant, in referring to this subject in his message to the Common Council of the city of New York, says the expenses of the maintenance of the State's insane institutions is more than half a million dollars per annum, and he says further: "In addition to the cost of the State's insane institutions, the city is called upon to pay at least 45 per cent. of the total cost of the maintenance of the State's insane institutions, and a heavy burden for the city's taxpayers, and it is of importance to them that something should be done."

It is evident from the language of Gov. Flower in his message that he favors the adoption by New York and Kings of some plan of a polyclinic for the insane, available to all the divers of the privilege offered by the act of 1890 to turn the care of their insane over to the State. This would be a great saving to the State throughout the State, and taxation for the insane would be put on a fair basis in all the counties.

Gov. Grant requires that if the County of New York shall transfer its insane patients to the State hospitals it shall transfer to the State the expenses of their maintenance, housekeeping, and this is one of the things that must be taken into account by the Common Council. Largens is the sum that has been suggested, and it is evident that there are insufficient funds for the accommodation of the city's insane, and the Common Council of New York has no right to insist that the increased provision for the creation of the asylum is imperative and cannot be deferred. Whether the city or the State shall make the first move in this regard will depend on the policy that the city may adopt regarding the transfer question.

Gov. Grant suggests that the financial propositions in that part of his message devoted to this subject. After referring to the fact that the city now expends over \$500,000 yearly upon the care of its insane, he says: "At 45 per cent. of the cost of the insane of other counties, he says:

"The city of New York, after all expenses of the care of the insane of other counties, will be left with a balance of \$100,000, and it is reasonable to suppose that the main question here alluded to can be settled. The Mayor makes another suggestion to the Common Council in these words:

"Request you to appoint a committee to investigate the appointment of a Commissioner to the State hospitals, and the municipal authorities that the main question here alluded to can be settled. The Mayor makes another suggestion to the Common Council in these words:

"Relative to the controversy over the branding of Harvard University, Lawyer Jason Hinman, an Amherst man and member of the Sigma Chapter of the D. R. E. fraternity who takes an active interest in college affairs, has written to me to say that it is only fair to set the record straight that what is known as the D. R. E. Society at Harvard University has no connection with the general college fraternity at Harvard. The charter of this chapter has been forfeited, though the society will remain in existence, and I carried on the name of the society, the action of the police. I do not wish to be understood as defending these practices. They are absolutely abominable, and I hope that the Legislature will take such action as may be necessary."

The Legislature is ready to deal with the subject. The Legislature is ready to deal with the subject. The Legislature is ready to deal with the subject.

DR. BURCHARD'S OLD CHURCH BURNED. It has been occupied by the Zion German Presbyterian Church recently.

The Zion German Presbyterian Church, on the north side of Fourth street, just east of Lexington avenue, was destroyed by fire early yesterday morning. The church was two stories high and covered a plot 50x100 feet.

The fire is supposed to have been caused by an overheated hot air pipe in the pastor's study. The decorations which were put up at Christmas time caught and the flames spread all around the upper story.

When the firemen arrived the flames had made such headway that it became necessary for the pastor to leave. The insurance patrol saw the church records and took the switch when everything was lost. The fire was extinguished in an hour.

The loss of the records of the Zion German Presbyterian Church house awoke the fears of the neighboring houses and hurried them into the street. The damage is variously estimated at \$10,000 to \$15,000.

The church was built nearly thirty years ago by an English congregation that worshipped in a building in Ninth street. The Rev. George W. Chapman, the pastor, said that he was succeeded by the Rev. Dr. Burghard, who was also President of Rutgers College. He remained in the pastorate until the Rev. Dr. Hinman succeeded him, and the Rev. Dr. Hinman, as the charter of the Harvard chapter has been forfeited, though the society will remain in existence, and I carried on the name of the society, the action of the police. I do not wish to be understood as defending these practices. They are absolutely abominable, and I hope that the Legislature will take such action as may be necessary."

DR. WILTON HILL A DEFaulTER. A Treasury Expert Reverses the Dishonesty of a Dead Bank Cashier.

NEW BRUNSWICK, Jan. 14.—An expert from the Treasury Department, who for the last week has examined the condition of the Jamesburg National Bank, has made his report yesterday. He says that the late T. Wilton Hill, cashier of the bank, was a defaulter to the amount of about \$27,000. He finds that the whole surplus is gone, and that a considerable amount of the stock has been hypothecated. Considerable sums belonging to depositors have been taken, and their accounts were found to appear as overdrawn. All the stock was taken by the bank to the amount of \$27,000.

The banker, the President of the State Reform Bank, demands \$10,000 to meet the defalcation, but the money was not available, but finally given for it, and it was not until the Government's report was made that the defalcation was known.

Hill's salary as cashier was \$1,500 a year, and he left personal debts amounting to about \$18,000.

A New York Contractor Killed. The Effort to Secure Dunlap's Release.

WHEELING, W. Va., Jan. 14.—D. Carey of the firm of Paige, Carey & Co., contractors, of New York, left from the new stone bridge which he had built over the Cheat River, to have the contract for building the bridge.

Will you read a book on it? Free.

Scoville, Chemist, 128 Spring Street, New York, whose drugs keep Scott's Emulsion of cod-liver oil and glycerine every day.

The Effort to Secure Dunlap's Release.

BALTIMORE, Jan. 14.—The papers in the case of Dunlap, the Northampton Bank robber, have referred to the Committee on Pardons of the Executive, and another attempt will be made to secure his release from State prison, notwithstanding the refusal of Gov. Borden to pardon him.

FOUR DIVISIONS REVERSED.

It begins to look like a hard winter—Prisoners' Pleas Not Guilty.

In consequence of the request from Superintendent Murray that the licensees of the "Exercise Exchange," 338 Bowery, the "Hole in the Wall," 117 Fourth avenue, and the "Black and Tan," 235 Sullivan street, be revoked, the Exercise Commissioners invited Alfred Davis, George McKnight, or his representative, Carey Welch, and Augustus Guidon, in whose names the licensees were granted, to attend yesterday's meeting of the Board. Davis was the only one of the four who accepted the invitation, and he had nothing to present in contradiction of the evidence submitted by the police. All the licensees were revoked.

Superintendent Murray says that he has a long-licensed place that he will try to have closed as soon as possible, but he has completed the work of getting out evidence. Capt. Bryan, who replaced Capt. Brogan in command of the Mercer street squad, has found many places that he thinks should be closed. Capt. Bryan is older than Capt. Brogan and he wears glasses at night. This may account for it.

Divekeepers Thomas McCormick, John H. Metcalf, Paul McCarthy, John Kelly, Charles A. Smith, Thomas G. Jones, James Lynch, Charles J. Lewis, Walter Williams, and others were present yesterday in the General Sessions before Judge Fitzgerald to plead an indictment against divers keepers to-day.

William McCleod, one of the divers of Billy McCleod, was on trial yesterday in the General Sessions for robbing Robert Merner there. It was this case that led to the trial of the divers, and it is believed that the Grand Jury will find other indictments against divers keepers to-day.

Gov. Flower points out the fact that many of the divers, including Captain Annie Williams, are now on trial yesterday in the General Sessions before Judge Fitzgerald to plead an indictment against divers keepers to-day.
